Feedback Committee Report 2020-21

A regular feedback from students is a valuable tool in enhancing the quality of Teaching Learning Process. For the session 2020-21 Feedback Committee conducted online feedback surveys from different stakeholders i.e. students, parents, faculty and alumni. A new online student satisfaction survey form was structured to get online feedback of students since students could not be physically present in the college for most of the year due to Covid-19 pandemic. Another online feedback on syllabus was taken from students, parents and teachers. In addition, a feedback from graduating students in the year 2021 in the form ‘ Exit Survey’ so as to get an overview of their experience in the college. All the Feedback Forms were analyzed and suggestions of the students were discussed by the Committee with Principal, Dr Nisha Bhargava in the chair and also in the meetings of IQAC. Suggested changes and procedural actions were undertaken. Thus the online feedback is a vital step towards the improvement of various aspects concerning the institution.
