The campus mentoring program provides academic, social, personal, and career support to all undergraduate and postgraduate students. The mentors act as guides, friends and role models for the students, and impart moral values which help students face life's challenges and become good citizens.

At the commencement of the session 2021-22, mentors were assigned new students in addition to the previous ones. G-suite IDs were created for all the mentees so as to facilitate online Google meets. The mentors acquainted the students with various topics like Nutritional needs of adolescents, Institutional Innovation and Start-up Policy- Paving the way for Entrepreneurship, SWOT analysis, Filling form of City Swachhta Survey, Coping with stress and managing time during exams, and so on. Apart from this, mentors addressed students' problems, traced their progression during mid-semester exams, motivated them to participate in co-curricular and extracurricular activities, and counselled them at all levels.

The summary of the newly formed groups during the session 2021-2022 and previously existing groups is as follows:
