Student Grievance Redressal Cell (2021-2022)

Student Grievance Redressal Cell is working to create responsive and accountable attitude amongst all the stakeholders in order to maintain harmonious educational atmosphere in the institute. The cell encourages the students to express their grievance freely and frankly. During this year, 12 new suggestion boxes were installed at various strategic locations of the college where students can drop in their complaints. For a long time, teaching learning process was carried online, so the cell held meeting with feedback committee. Students' feedback was conducted online and major issues cropping therein were addressed.

Student Grievance Redressal Cell Members
