1. Blood Donation Camp - 2022

NSS Units, Red Ribbon Club, AIDS Awareness Committee, Health committee and Medical Committee of Mehr Chand DAV College for Women, Chandigarh organized a Blood Donation Camp - 2022, in collaboration with Post Graduate Institute of Medical Education & Research, Chandigarh (PGIMER), Chandigarh (UT) on 15th March, 2022 in the Multimedia Hall of college premises. Blood donation drive was also supported by Lions Club Chandigarh Prosperity.

During the drive Dr. Nisha Bhargava, Principal of the college accorded green welcome to Madam Harinder Kaur, Regional Director, Ministry of Youth Affairs and Sports & Regional Ddirector of NSS Chandigarh, President Mr Suri Pal, Dr. Suchet Sachdev, Associate Professor- Blood and Transfusion Department, PGI. Besides, Madam Principal, Coordinators of the drive – Dr. Bhavna Sood (Co-Convenor – AIDS/HIV Committee, Red Ribbon Club), Dr. Sarabjeet Kaur (Co-Convenor – Medical Committee), Dr. Pallvi Rani and Dr. Purnima Bhandari (NSS POs) were felicitated by distinguished members of Lions Club Chandigarh Prosperity. All the donors were given refreshments and certificates for the noble

gesture towards humanity. More than 100 units of blood were collected. Students were motivated to play their important part in the service to society. Many students and staff-members participated enthusiastically in this Blood Donation Drive.

2. Cleaning of Tanks

The cleaning of all the water tanks in the college and hostel campus was done on 26th June, 2022. The contract for the above-mentioned work was given to the Chandigarh based crystal clean company. They followed a German based seven step technology for the same which includes

1. **Cleaning of Surrounding.** We clean the outer area of tank with pressure water machine to remove the dirt, spider webs etc.
2. **Dewatering.** We empty the water of the tank with submersible pump.
3. **High Pressure Cleaning.** Jet washer machine is used to clean the inner walls of the tanks.
4. **Sludge Removal** All the dirt / sludge to be removed not through the pipes but with sludge removal machine.
5. **Vacuum Cleaning.** Vacuum cleaner machine is used to remove the remaining dirt particles.
6. **Anti-Bacterial Sprays.** Anti-bacterial spray (H₂O₂) is used to kill the harmful bacteria and to slow down the growth of bacteria.
7. **Ultra Violet Treatment.** Ultra Violet lights are used to kill the unseen harmful bacteria.

3. Sanitization of Hostels

Due to the outburst of the pandemic in the country the hostel was vacated but however as a preventive measure and to eliminate any possibility of spreading of virus in the campus the hostels were sanitized on 11.07.2021 and 5.08.2021.
