Organic Farming

Since February 2018

Workshop Series on organic farming was started in the college in February 2018. A practice to enhance environmental sustainability, it is envisioned to impart knowledge and skills to grow chemical free vegetables, grains, herbs, medicinal plants and fruits , especially in the urban spaces, thus contributing to reduction in pollution caused by chemicals. The program is being conducted in collaboration with the KHETI VIRASAT MISSION, a Regional Council (for Decentralized Organic Farming Certification System) under the Participatory Guarantee System of the Ministry of Agriculture and Farmers Welfare, Government of India. Apart from Rishi Vatika, it is being practiced near Hostel E and F:
