## PLANTATION DRIVE (Each One Plant One)

**Organized by**

**Mehr Chand Mahajan DAV College for  
Women, Chandigarh (U.T.)**

*in association with*

**Mahatma Gandhi National Council of Rural  
Education (MGNCRE), Ministry of Education,  
Govt of India.**

**TITLE OF THE ACTIVITY :** PLANTATION DRIVE (Each One Plant One) under aegis of MGNCRE, Ministry of Education, Govt of India.

**Date :** 27.1.2022

**Organized by:** Mehr Chand Mahajan DAV College for Women, Chandigarh in collaboration with Mahatma Gandhi National Council of Rural Education (MGNCRE), Ministry of Education, GOI.

**Chairman (MGNCRE):** Dr. W G Prasanna Kumar

**Convenor and Principal:** Dr. Nisha Bhargava

**Coordinators :** Dr.Vandana Sharma and Dr.Sandeep Kaur

**Student participation:** Six students of BSc.(MFT)-III year

**Context:** To sensitize, encourage and engage students, staff, all stake holders of the college and community about scientific tree plantation for increasing green coverage. Trees play an important role in maintaining sustainability and balance of the environment. Many ecological processes and their normal functioning such as cycling of nutrients, rain fall, soil fertility, clean air depends on the tree cover. Vegetation protects wild life and provides habitat. Besides, trees have social, spiritual, commercial, medicinal significance.

**Objectives:**

- To help students understand the value of plants and trees and to inspire them to inculcate these services in their behaviour and action.
- To promote the concept of environment sustainability among youth for a prosperous and healthy future.

**PRACTICE:**

With the primary objective of imbibing, encouraging and engaging students about the concept of sustainable healthy eco-friendly environment, tree plantation drive was organized under the aegis of MGNCRE, Ministry of Education, GOI. Under this drive, the concept of planting more trees was encouraged in a unique way in which each participating student made a video or a short description of the sapling adopted based on “Each one plant one”. The students made

interesting videos/stories and write-up's emphasising on the importance and need of planting trees and maintain sustainability for future generations and took pledge to take care of their plants.

**EVIDENCE OF SUCCESS:**

A total of six students of BSc.(MFT)-III year showed enthusiastic participation and all the videos and short write-ups were merged as a single video (<https://photos.app.goo.gl/LJRTSqEDDt3JcMNQA>) and submitted.

**"Don't make trees rare, keep them with care."**

Trees are a great gift of nature to humanity. They are like people of high quality who live and die for others or we can say they are the pillars for sustaining life on earth. So keeping in mind the vitality of trees, I Nilakshi Singla, student of MCM DAV COLLEGE, join my hands and come forward in order to be a part of this plantation drive. And i pledge to take care of not only this plant but also other plants in my surroundings. Infact, i insist every one of us should grow more and more trees around us. We should help the government in its efforts to save our natural resource and stop, selfish people, from cutting down our forests.

Each one plant one should be our motive!

**EACH ONE PLANT ONE**  
(BY SHUBNAM KAUR)

If you want to be happy for a year, plant a garden; if you want to be happy for life, plant a tree. This English proverb shows us the importance of trees in our life. Trees plantation has many advantages on the earth and our wellbeing. We as a whole inhale oxygen to live, and the trees are the main characteristics source of oxygen. It also guarantees that the supply of oxygen never ends.

Let's think of our future generations and make this earth a safe place to live. We need to inculcate the habit of sustainable living and save the resources for others as well. Planting a sapling now will enable to protect this place and a small step now will make a huge difference. I promise to nurture my sapling and take care of

[I hereby pledge to plant a beautiful sapling every year on the occasion of my birthday' said me, 6 years before. My family has a cultural liking for gardening and I love being a part of it. Every year each one of us adds another plant to the plethora of ours. Once you plant a sapling with genuine interest you foster it like your best companion. My favourites of all are common daisy, papaya tree, and the rose species we often plant. In the honour of this drive I've added another sapling to the yard and I'd love if each one reading this would inspire and do the same and foster the plant's for it's existence. It's rightly said that One Who Plants A Tree, Plants A Hope.<sup>30</sup>
