And agree that co-operation in research collaborations and student and faculty exchanges would be mutually beneficial. The areas of co-operation may include, subject to mutual consent, any desirable and feasible activity that would further the goal of each institution. Such interaction may include cooperation in a variety of joint academic and educational activities such as ;

- Joint research projects and publications, including work by undergraduate and postgraduate students if any at the partner institutions
- Faculty and student exchanges based on the reciprocity;
- Joint conferences and workshops
- Participation in Online Certificate and Diploma Programmes run by the partner institution
- Visits by faculty, professional staff and students.
- The parties intend to come together to collaborate on various initiatives to co-create the startup ecosystem;
- The parties intend to undertake roles and responsibilities as per areas of mutual interest in their respective areas of core competency; like internship, events, fairs etc with mutual consent and agreed norms of signing parties
- The parties intend to share on mutually agreeable terms access to resources such as Infrastructure facilities, Equipment, Knowledge base like utilizing seminar halls, setting up stalls, allowing students for exposure visits, guest lecturers etc with mutual consent and agreed norms of signing parties ; AND
- The parties intend to engage on mutually agreeable terms in various activities such as training, counseling, mentoring, coaching, consulting, outreach, networking, exchange programs, boot camps, awareness drives, exhibitions, conferences, research activities, thematic events, evaluation, co-incubation etc.

The parties anticipate that a number of these initiatives will occur during the period of MOU. However, neither party is obligated to agree any minimum number of activities, nor is this MOU intended to preclude either party from entering into similar agreements with other institutions.

Based on previous discussions between the parties, the following initiatives provide good starting places and can be implemented as soon as administrative details are agreed upon between the two colleges.

- Faculty and student exchanges and opportunities for internship
- Cooperation in academic and research programs in Sciences, Social Sciences and Entrepreneurship Development

The MOU shall be identified as the parent document of any program agreement executed between the parties. Further agreements concerning any program shall provide details concerning the specific commitments made by each party and shall not become effective until they have been reduced to writing, executed by the duly authorized representatives of the parties.

Cooperation in Education and Research

Student exchange programs will be conducted based on the basis of need and mutual consensus between the parties. Cooperation and exchanges may take place with both undergraduate and post graduate students. The duration and mode (online or offline) of the exchange may be decided by the PARTIES as per their convenience usually one semester or one intensive course normally three or four weeks scheduled either between academic terms or during summer. The specific procedure to be followed while student exchange program shall be set forth in a separate written document by the parties.

If two or more faculties from each institution are engaged in collaborative research projects, the research students at one institution may visit and work in the lab and library of the faculty member at the other institution and incorporate the work done as part of their dissertation research. When connected to funded research projects, the host institution will endeavor to provide a stipend for the visiting doctoral student or research scholar.

Short Intensive Course

Short Intensive courses offered as value added courses or certificate programmes, will be taught by faculty members of the parties and students will pay the fees to the host institute and certificates will be provided by the host institute on successful completion of the program.

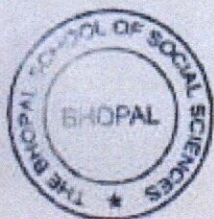

Intellectual Rights Protection

Both parties will respect each party's intellectual property rights and hereby commit to abstain from making use of any technical knowledge which is disclosed to them or which becomes known to either of the parties by any inadvertent or intentional act, without the written consent of the other party.

The primary contact for this MOU are the Principal for the Bhopal School of Social Sciences and Principal for Mehr Chand Mahajan DAV College for Women.

As previously mentioned, the parties shall enter into program specific written agreements whenever needed. For agreed upon activities, both institutions will make available their facilities and staff. The MOU will take effect on and will be valid for 5 years from the date noted in the first line of this document unless terminated by one of the parties. Either party may withdraw from this MOU provided written notification of the withdrawal is given to the other party at least 3 months prior to the desired withdrawal date. TITLE: National level workshop on Academic Writing

Activity: Online session with an expert on how to start a research paper, basic information about various softwares that can be used while writing research papers, and finding quality journals

Department: Skill Development Committee

Date: 30th December, 2022

Objective: To help students know more about writing a research paper and how it is helpful in their careers. Another main objective was to give an in depth knowledge of academic writing to all students.

Resource Person: Dr. Neeraj Kumar

Convener: Dr. Nisha Bhargawa

Co-convener: Dr. Gurvinder Kaur

Coordinator: Dr. Minakshi Rana, Dr. Smith Pillai

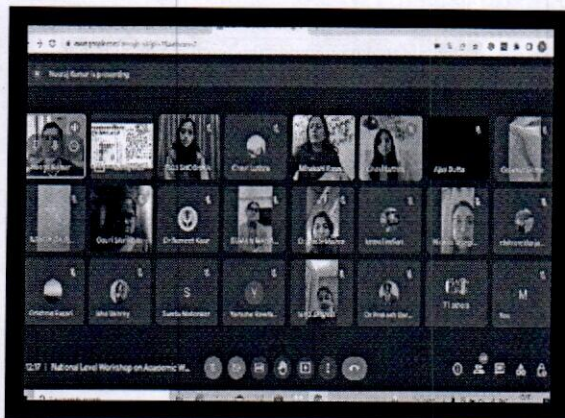

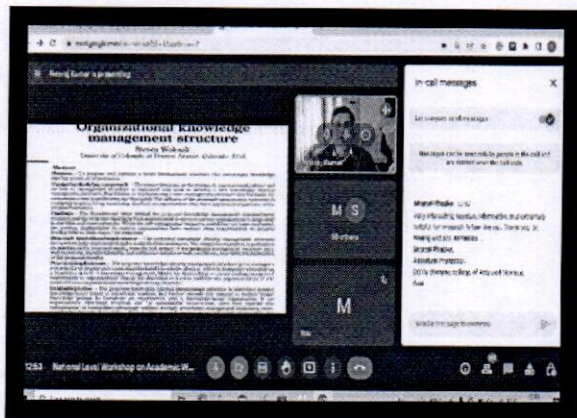

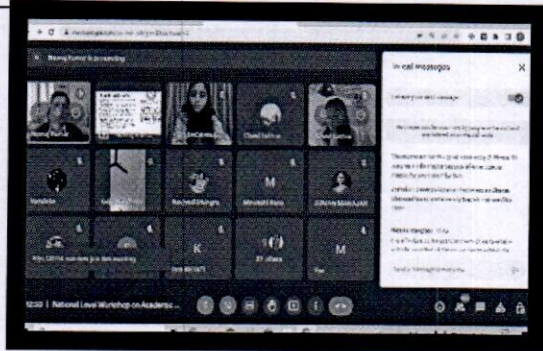

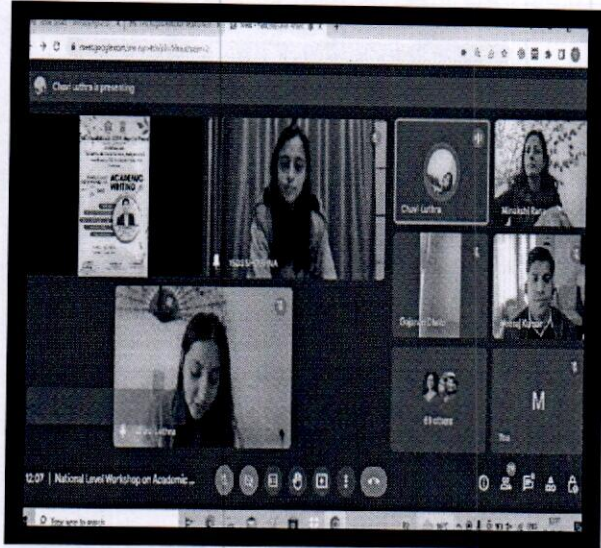

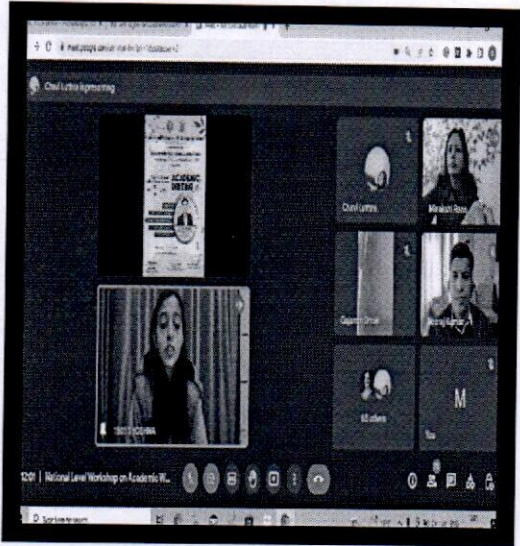

Number of Participants: Over 100 students, research scholars and faculty members across India

Context: A national level online workshop on “Academic Writing” was organised by Mehr Chand Mahajan DAV College for Women in collaboration with the Bhopal School of Social Sciences, MP under the aegis of the Skill Development Committee. Dr. Neeraj Kumar, Deputy Librarian, A. C. Joshi Library, Panjab University was invited to share his valuable insights as a resource person. The various topics covered in the workshop were: how to start a research paper, how to find suitable quality journals, various online tools that can be helpful while writing a research paper and Plagiarism checker. Dr. Neeraj Kumar, having a vast experience and having written over forty research papers himself shared in depth knowledge relating to the above mentioned topics and covered various other aspects of academic writing as well. He conducted the session in a very simple and a clear manner, and addressed all the queries of the students at the end of the session.

Practice: The session saw enthusiastic participation by all students. The resource person shared various important software namely Endnote, Mendley, Latex available free of cost online which can be used for formatting, language editing and managing references. He told the participants how to avoid plagiarism while writing a research article with the help of paraphrasing and in-text citation. He mentioned the importance of a covering letter at the time of submission of the research paper for publication. He also shared important websites to find quality journals as per the objectives of the manuscript. The session was overall very informative and helpful for all the students, research scholars and faculty members.

Evidence of Success: The session got an overwhelming response from the participants. A very positive feedback was received by the organizers by the end of the session. The participants also demanded that more such workshops be organized in the near future.

Title: Bridge Course for beginners in Structure Equation Model Analysis

Activity: 5-day online workshop on Structure Equation Model Analysis

Department: Skill Development Committee

Date: 17th-21st January,2022

Objective: To equip the faculty members, research scholars and students with advanced research tools

Co-Convenor: Dr Gurvinder Kaur

Coordinator: Dr.Minakshi Rana

Number of participants: 32 people including faculty members and research scholars

Context: Quality research is the tool for creating authentic knowledge for civilizations. Only research can answer curiosity and provide society with better content and aptitude.

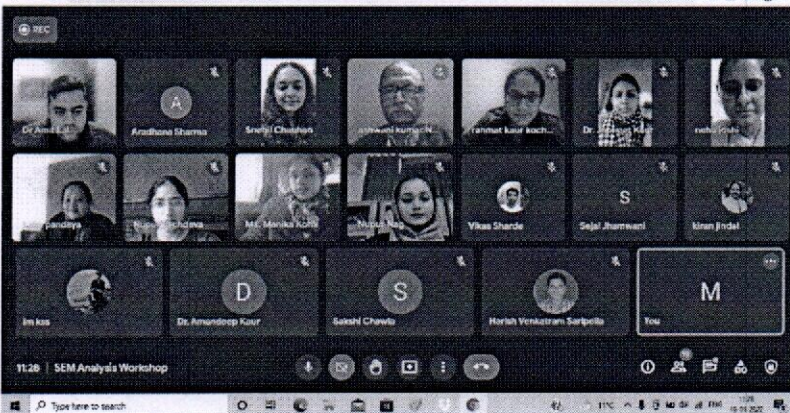

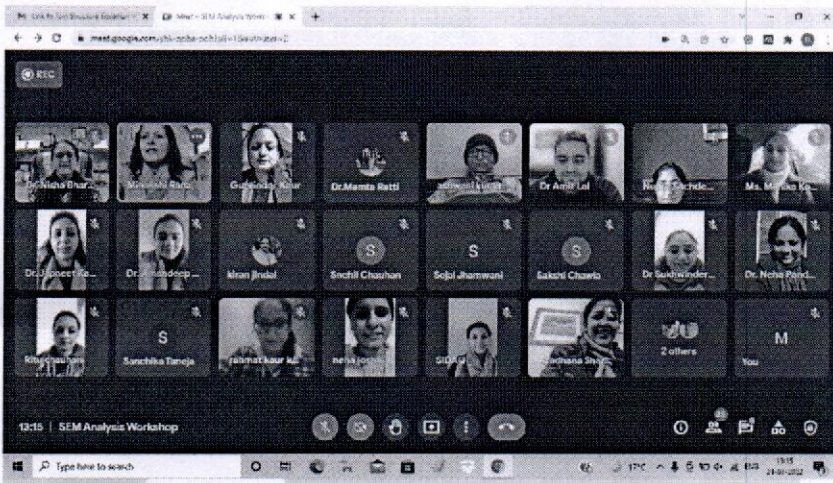

To equip the faculty members, research scholars and students with advanced research tools, Skill development Committee of Mehr Chand Mahajan DAV College for Women Chandigarh has organized a 5-day online workshop on Structure Equation Model Analysis.

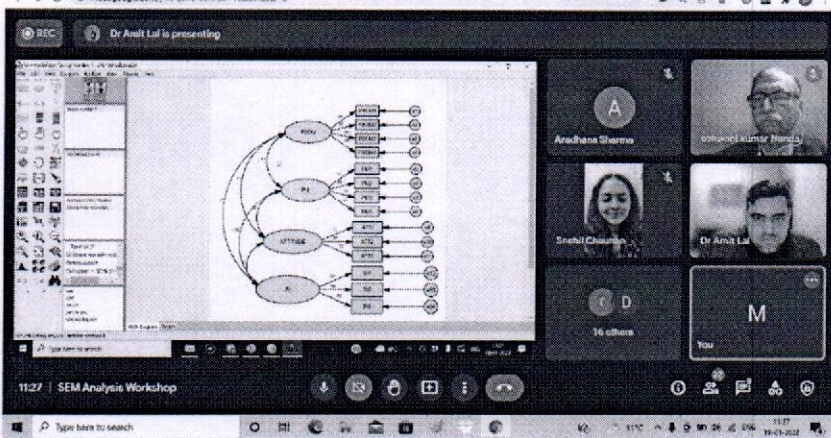

Practice: The workshop was started with the session on meaning and use of Regression analysis. The participants were told that the basic purpose of Regression is prediction and it helps in arriving at statistically significant cause and effect relationships. Further, exploratory factor analysis (EFA) and confirmatory factor analysis (CFA) were explained. Basically, EFA and CFA helps in reducing the number of variables and developing significant factors based on variables for the problem in question. After the detailed explanation, the Concept of Structure Equation Model was introduced. A careful selection of theory to answer the problem in question is crucial for Structure Equation Model analysis. It is a theory based confirmatory analysis that helps in developing models based on latent comprising endogenous as well as exogenous variables. The various drawing tools of AMOS software were explained and a model was run to facilitate practical application. Practice sheets were provided to the participants for better understanding. Further, a detailed session was done on interpretation of findings and reporting of results in research paper.

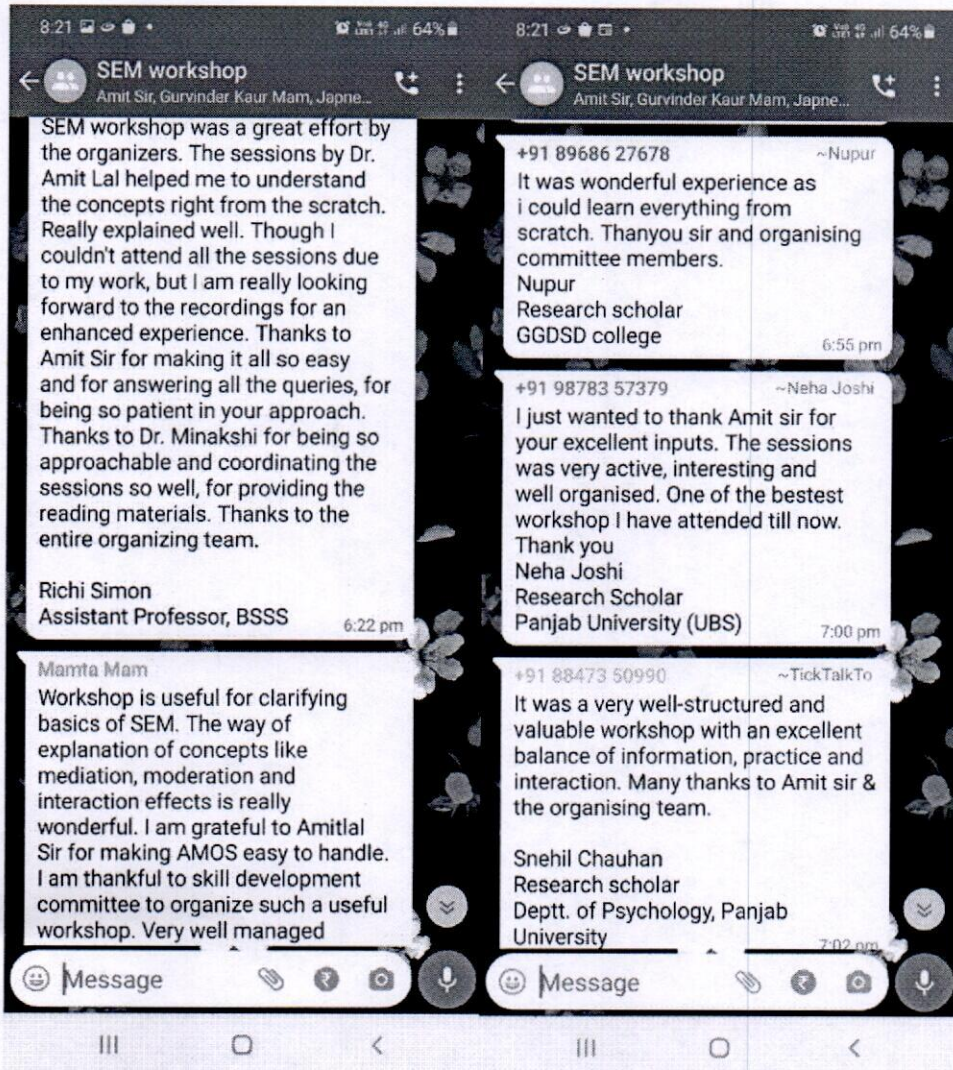

Principal Dr Nisha Bhargava said quality research is important for personal as well as professional growth as it builds scientific temperament and attitude. Further, it aids progress of a nation and mark it's presence on globe. The college is committed to promote research aptitude and shall continue organizing workshops on advanced research tools and techniques.

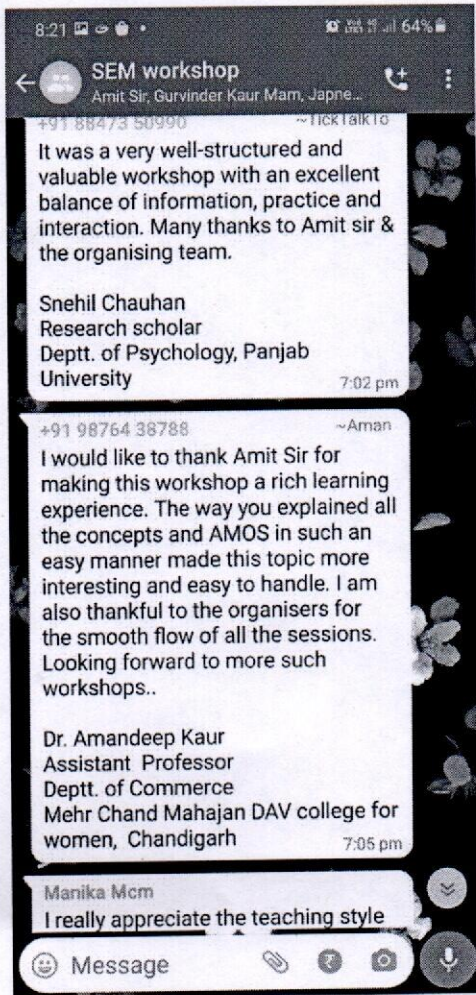

Evidence of Success: The participants were overwhelmed with the information and exposure provided during the session.
