The department of Video Reporting actively engages in various activities conducted in the college. The department also organises media visits, workshops etc from time to time to expose students to changing trends and provide them the opportunities to learn.

Media Visit to The Tribune, Chandigarh

In the month of September 2019 the Video Reporting Certificate students were taken to the premises of The Tribune, Chandigarh, an English daily. It was a media visit organised for the students to gain an experience on how a newspaper office functions and to understand the nuances of the printing a newspaper. The students were taken to the printing press, where massive machines are erected. Incidentally we reached at an hour when printing of a weekly edition was going on, hence students could understand the entire process of printing. The students also got as chance to interact with the staff who handles the social media of The Tribune. Later a question and answer session was organised for students with an official of the The Tribune to clear doubts.
