The department of French add-on course organised an educational visit to the “Le Corbusier” museum on February 16, 2023. The museum displays the works of the renowned french-swiss architect Le Corbusier and exhibits his life, hence it was an interesting and informative experience for the students of the course. The purpose of the visit was also to acquaint the students to the traces of city’s heritage and it’s architecture. What caught the students attention was the huge installation of the map of Chandigarh and its surrounding areas. They were stunned to see the planning of the different sectors. The field trip ended up with an equally delightful experience of visiting the souvenir shop located in the premises of the museum itself.
