Mentorship is a relationship in which mentors offer guidance and support to the mentees, enhancing their personal and professional growth. By focusing on skill development, confidence building, and goal achievement within a supportive framework, mentorship benefits both the mentees and mentors through shared learning and satisfaction.

At the commencement of the session 2023-24, new students were assigned to the mentors in addition to the previous ones. The assignment of groups was executed in a meticulous manner after much thoughtful planning of matching the students with their teachers. The summary of all the mentorship groups of undergraduate and postgraduate classes during the session 2023-2024 is as follows:
