The Mentorship Committee plays a pivotal role in fostering academic excellence, personal growth, and professional development among students. Established with the objective of providing structured guidance and support, the committee serves as the backbone of the institutional mentorship program. It is responsible for planning, implementing, and monitoring mentorship activities across undergraduate and postgraduate programs. Its key functions include assigning mentors to students, organizing orientation and training sessions, maintaining records of mentor-mentee interactions, and evaluating the effectiveness of the mentorship process. By creating a framework that promotes open communication, goal-setting, and mutual respect, the Mentorship Committee ensures that all the students receive the support they need to thrive academically and personally during their time at the institution.

As the 2024–2025 session commenced, new students were seamlessly integrated into the existing mentorship framework. Undergraduate and postgraduate students were thoughtfully grouped with faculty mentors based on areas of specialization, compatibility, and individual needs. Mentors conducted regular sessions to track progress, address challenges, and support students in both academic and personal areas. Activities such as one-on-one meetings, academic counseling, wellness workshops, and peer discussions enriched the learning environment and increased confidence among the mentees. The structured nature of the program contributed significantly to building a culture of trust and support within the institution.

The summary of all the mentorship groups of undergraduate and postgraduate classes during the session 2024–2025 is as follows:

Stream	Number of groups during the session 2024-2025				
	UG I	PG I	UG II	PG II	UG III
Arts	55	14 & PGDMC (01)	42	14	38
Commerce	25	02	23	02	20
Science	16	05	17	06	12
